MASCOT, WAKE FOREST WINGS, CHAPTER NC-X

PROFESSIONAL EXPERIENCE

A very successful career in motorcycle design, consultant to many famous motorcycle designers and builders, some of whom may have been seen on cable TV.

Jay Leno relies upon Xavier for advice when acquiring new motorcycles for his extensive collection.

Consultant to Honda on design of GoldWing 2013.

Personal Riding Experience

After riding many motorcycles, produced by a multitude of manufacturers, Xavier finally achieved his second dream. He bought his first GoldWing, a 1975 GL 1000. He rode this all over the Southeast U.S., accumulating nearly 12,000 miles in his first year of riding. To really experience the GoldWing legend and progression, Xavier upgraded through a GL1100, GL1200, and GL1500 to his current ride, a GL1800. He amassed over 300,000 miles of safe riding, and just recently decided to trike his GL1800 for even more comfort, safety, and room to be enjoyed during his travels. Xavier has ridden a Gold Wing in every state in the lower 48, Alaska, every Canadian Province, Newfoundland, and Hawaii.
